VLAB TERMS OF SERVICE

Effective Date: 27/8/2026
Last Updated: 27/8/2026

Service: VLAB – Virtual Laboratory
Operator: Ngựa Mán Team – Cao Bang High School for the Gifted
Contact Email: nguamanvlab@gmail.com
Website: https://vlabwebapp.vercel.app/

1. Scope

Welcome to **VLAB – Virtual Laboratory** ("VLAB", the "Service", "we", "us", or "our").

These Terms of Service ("Terms") govern your access to and use of the VLAB application, VLAB website, educational content, and related products, devices, and services provided by the Ngựa Mán Team.

By accessing, installing, or using VLAB, you acknowledge that you have read, understood, and agreed to these Terms.

If you do not agree with any part of these Terms, you should discontinue use of the Service.

2. About VLAB

VLAB is a multi-subject virtual laboratory platform designed to help students access STEM practical-learning experiences through smartphones, virtual reality headsets, and ESP32-based interactive controllers.

VLAB is designed around the following educational areas:

- Physics;
- Chemistry;
- Biology;
- Engineering.

The Service is intended to improve access to STEM practice and allow learners to observe, interact, experiment, and repeat activities in a simulated environment.

3. Intended Users

VLAB is primarily designed for STEM education, particularly for students and school-based learning environments.

Users who are minors must use VLAB in an age-appropriate manner and, where appropriate, under the guidance or supervision of a parent, legal guardian, teacher, or school.

Schools, teachers, and guardians are responsible for assessing device conditions and providing appropriate guidance.

4. Right to Use

We grant users a limited right to use VLAB for personal and educational purposes within the scope of the Service.

This right does not permit users to:

- resell, lease, or sublicense VLAB without authorization;
- copy or redistribute the software or content without authorization;
- interfere with or disrupt the Service;
- reverse engineer, modify, or extract source code without authorization;
- bypass technical protections or restrictions;
- use the Service for unlawful purposes or to harm others.

5. Devices and Requirements

Certain VLAB functionality may require compatible devices, including:

- smartphones;
- smartphone-compatible VR headsets;
- ESP32 controllers;
- IMU sensors;
- joysticks and buttons;
- Bluetooth Low Energy (BLE).

Users are responsible for obtaining and maintaining the devices necessary to use the Service.

Compatibility may vary depending on the application version, operating system, and device.

6. Controller Connectivity

VLAB may use Bluetooth Low Energy to transmit interaction data from ESP32 controllers to a smartphone.

This communication supports interactions within the virtual environment, including virtual-hand, tool, and experiment interactions.

Connection quality may vary depending on the device, environment, distance, radio interference, and hardware conditions.

7. Safety

VLAB is an educational simulation environment and does not fully replace physical laboratory practice or professional instruction.

When using VR, users must:

- use the system in a safe area with sufficient surrounding space;
- avoid using VR while moving through areas where collisions may occur;
- stop using the system if dizziness, nausea, headache, loss of balance, or other discomfort occurs;
- follow instructions from teachers, parents, or guardians;
- use hardware according to the provided instructions.

VLAB simulations must not be interpreted as instructions for performing hazardous real-world experiments.

8. Educational Content and Simulation Results

VLAB content is provided for STEM educational purposes.

Simulation results may be simplified or modeled for educational objectives and may not fully represent every condition of a real-world experiment.

Users must not rely solely on VLAB simulations for technical, medical, safety, engineering, or other professional decisions.

9. Intellectual Property

Unless otherwise stated, VLAB, the VLAB name and branding, software, interface, designs, original content, images, models, and documentation provided by the Ngựa Mán Team or the relevant rights holders are protected by applicable intellectual property laws.

Users may not copy, distribute, publish, modify, or commercially exploit these materials outside the permitted scope without authorization.

Third-party components, libraries, resources, and assets remain subject to their respective owners and license terms.

10. VLAB Kit

VLAB may offer a **VLAB Learning Kit** as a physical hardware product that complements the application.

As of the effective date of these Terms, the VLAB Kit is planned for release and may not yet be generally available for sale.

When the Kit becomes available for purchase, product information, pricing, payment, shipping, returns, warranty, and other purchase conditions will be provided in the applicable sales terms or commercial policies.

Purchasing or owning a VLAB Kit does not grant ownership of VLAB source code or intellectual property.

11. Pricing and Services

The VLAB application is currently intended to be provided free of charge.

Physical products or devices such as the VLAB Kit may be offered for purchase.

Prices for paid products or services may change in accordance with applicable law. Relevant pricing information will be disclosed before or at the time of the transaction.

12. Third-Party Services

VLAB may depend on operating systems, app stores, software libraries, connectivity services, or other third-party technologies.

Your use of such third-party services may also be governed by their own terms.

To the extent permitted by law, the Ngựa Mán Team is not responsible for changes or interruptions caused entirely by third-party services outside our reasonable control.

13. Updates and Changes

We may update, modify, replace, or temporarily suspend parts of the Service in order to:

- fix bugs;
- improve performance;
- improve compatibility;
- improve the learning experience;
- add or modify content.

Features may change between versions.

14. Availability

We aim to keep VLAB stable and available, but we do not guarantee uninterrupted or error-free operation.

The Service may become temporarily unavailable due to maintenance, updates, hardware issues, operating-system issues, wireless connectivity issues, or circumstances outside our reasonable control.

15. Prohibited Conduct

Users may not use VLAB to:

- engage in unlawful conduct;
- access or damage systems without authorization;
- distribute malware;
- interfere with the operation of the application or devices;
- infringe intellectual property or privacy rights;
- use VLAB for purposes outside applicable law.

16. Limitation of Liability

To the extent permitted by law, the Ngựa Mán Team is not responsible for losses or damage arising from:

- incompatible devices;
- improper use of VLAB;
- failures or damage caused by user-owned devices;
- Bluetooth disconnections;
- operating-system or third-party service failures;
- use of VLAB outside its intended educational purpose;
- events outside our reasonable control.

Nothing in these Terms excludes or limits liability that cannot legally be excluded or limited.

17. Termination

We may restrict or terminate a user's access to the Service where the user materially violates these Terms, disrupts the Service, or violates applicable law.

Users may stop using VLAB at any time.

18. Privacy Policy

The collection, use, storage, and protection of user information are governed by the **VLAB Privacy Policy**.

The Privacy Policy forms part of the terms governing use of VLAB.

19. Changes to These Terms

We may update these Terms when the Service changes, new products are introduced, or applicable laws change.

Updated Terms will be published with a revised update date.

Where permitted by law, continued use of VLAB after the updated Terms become effective constitutes acceptance of the revised Terms.

20. Governing Law

These Terms are governed by and interpreted in accordance with the **laws of Vietnam**.

21. Dispute Resolution

The parties will first seek to resolve disputes through good-faith discussion and negotiation.

If a dispute cannot be resolved through negotiation, it will be handled by the competent authorities or courts in Vietnam in accordance with applicable law.

22. Contact
